User Agreement

Objectives

UKKOR is the first registry in the world dedicated to recording patient outcomes from knee osteotomy:

- UKKOR aims to improve our understanding of knee osteotomy performance and longevity.
- UKKOR is designed to be of benefit to both surgeons and patients.

The registry should enable knee surgeons to:

- Accurately quantify the success of knee osteotomies with robust patient outcomes.
- Drive research to modify surgical technique and continuously improve patient outcomes.

Individual patients should be able to:

- Monitor their own clinical progress following knee osteotomy surgery.
- Confirm if their aspirations from knee osteotomy have been met.

Registry Principles

- UKKOR is an independent registry, governed by an independent, not-for-profit organisation, under the direction of knee surgeons in partnership with stakeholders.
- The UKKOR committee will establish the policies and procedures that will govern data use, dissemination, and reporting, including the relationship with organisations external to the registry, such as the BOA Quality Outcomes Committee, Department of Health, patient groups, and Industry partners.
- Initial core data elements to be captured by the registry will be defined with input from stakeholder groups.
- UKKOR believes that for the most comprehensive collection of core data, the reporting system must maximise existing data collection systems and rely upon participating hospitals, and individual surgeon members for submission of data to the registry.
- The security of registry data, patient privacy and data integrity are of the utmost importance and will be protected by the manner of GDPR, data access policies, and technical safeguards in partnership with the developer and data processor Amplitude Clinical.

- UKKOR believes that the analysis and interpretation of registry data must be objective and scientific.

Terms and Conditions of Usage

By using the UK Knee Osteotomy Registry (UKKOR) you are agreeing to comply with and be bound by the terms and conditions of use set out below. These shall constitute UKKOR's relationship with you in relation to the Registry. If you disagree with any part of the terms and conditions you must not use the Registry.

The terms 'UK Knee Osteotomy Registry (UKKOR)', 'us' or 'we' refer to the owners of the UKKOR Registry.

The term 'you' refers to the user or viewer of the UK Knee Osteotomy Registry.

The use of this online Registry is subject to the following terms of use:

- The content of this Registry is for your general information and use only. It is subject to change without notice.
- The Registry contains material which is owned by or licensed to us. This material includes, but is not limited to, the design, layout, look, appearance and graphics. Reproduction is prohibited other than in accordance with the copyright notice, which forms part of these terms and conditions.
- All trademarks reproduced in the Registry, which are not the property of, or licensed to the operator, are acknowledged on the website.
- Anyone wishing to retrieve data from the UKKOR for research purposes must contact the UKKOR Steering Group for approval to do so.
- UKKOR must be acknowledged as the source of data in any publication (including electronic versions) in which UKKOR data is used.
- If data provided by UKKOR for more than one Hospital/Centre are to be used in a publication, the UKKOR Steering Group must be able to review the manuscript and must agree details of the submission including appropriate authorship, nomination of contact person and details of the review process to be followed for the manuscript.
- Where consensus between authors cannot be reached concerning the interpretation of UKKOR data the document shall be circulated to the UKKOR Steering Group for discussion and resolution.
- Undergraduates, trainees, fellows and post graduates are encouraged to use UKKOR data; however a consultant who is a member of the Registry must be leading the project
- Unauthorised use of this website may give rise to a claim for damages and/or be a criminal offence.
- Your use of the Registry and any dispute arising out of such use are subject to the laws of England, Northern Ireland, Scotland and Wales.
- Computer Misuse Act 1990 - Unauthorised access to this system is an offence.

Data Protection Policy

UKKOR enables collection of personal data related to patients undergoing knee osteotomies. All data is to be collected in pursuance of the above Objectives, following the Registry Principles.

All data is subject to GDPR.

The UKKOR Steering Group is the Data Controller and Amplitude Clinical is the Data Processor under Data Protection rules. Your [user] must ensure all of your patients are appropriately consented.

The UK Knee Osteotomy Registry is registered with the Information Commissioner's Office (ICO) and recommend that you also register with the ICO.

Use of the registry requires you to abide by GDPR and to meet the following requirements:

- You will ensure appropriate security of your login details, and will contact Amplitude Clinical immediately if you suspect a breach of security.
- You will ensure that explicit patient consent is sought, given and recorded.
- You understand that failure to correctly indicate the acquisition of consent will lead to the deletion of identifying data upon your patients' records.
- You are entirely responsible for indicating patient's consent where this is done non electronically.
- All data will be accurate, and up to date.
- Only necessary and appropriate data will be recorded.
- You only grant access to appropriate individuals under your account, and that you remain responsible for the data entry upon your patients entered by said individuals.
- You only download stored information via reports, for appropriate use. This can include but is not exclusive to audit, research, and teaching purposes.
- Patient identifiable data can be obtained for a single patient and this must be kept secure in accordance with GDPR at all times.
- Express Research and Ethics approval must be in place for specific research data to be utilised.
- By using the Registry under these Terms and Conditions, you agree to anonymised use of your data for the purposes of UKKOR's pursuance of the above Goals and Objectives under the Registry Principles.

Disclaimer

Every effort is made to keep the Registry running smoothly. The UK Knee Osteotomy Registry and Amplitude Clinical take no responsibility for, and will not be liable for, the website being temporarily unavailable due to technical issues beyond our control.
