

UKKOR (UK Knee Osteotomy Registry)

Registry Process Flow

Email: customer.support@amplitude-clinical.com

Telephone: 0333 014 6363

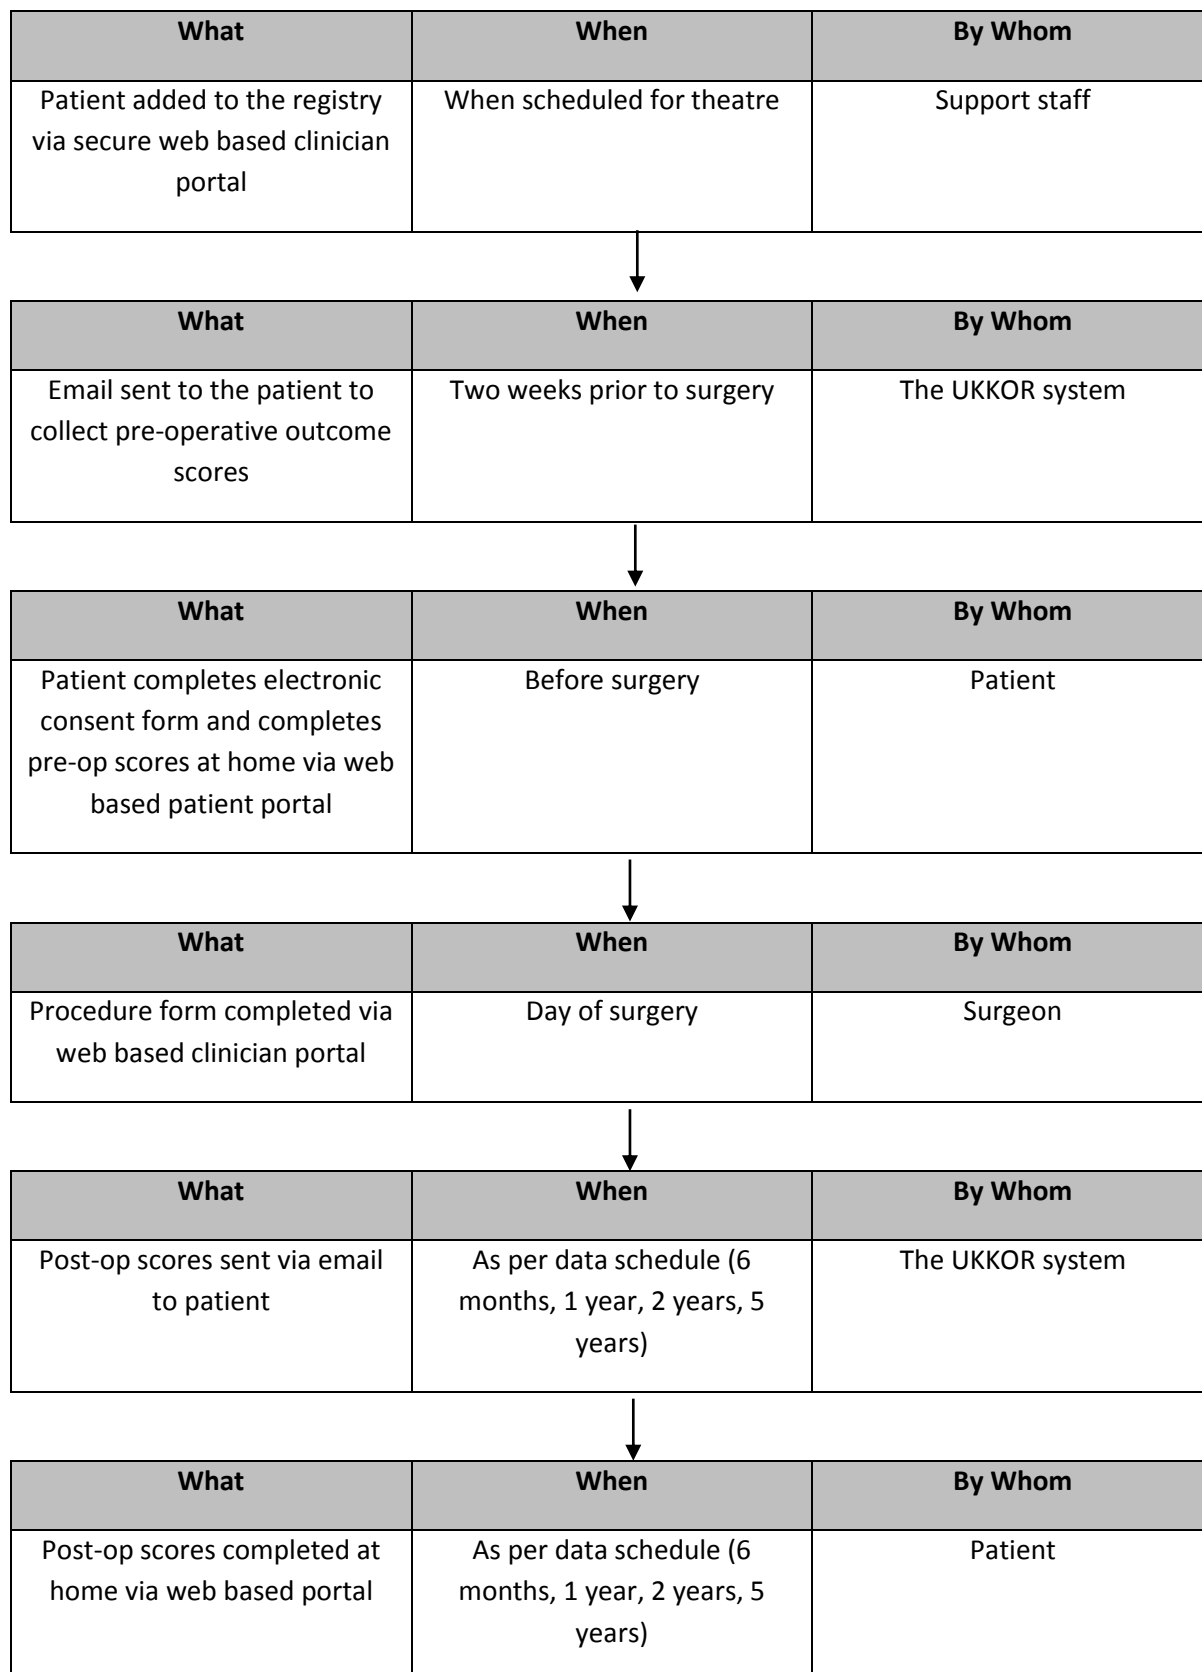

The UK Knee Osteotomy Registry (UKKOR) is a licensed version of the Amplitude *pro registry*TM software, available for Knee Surgeons based in the UK.

The purpose of this document is to demonstrate the process flow of the UKKOR registry, with clear indications of what actions take place and at what intervals.

The patient, the surgeon, their associated support staff and the system all play a role in the UKKOR process.

Please note: This process is suggested best practice from Amplitude. UKKOR users may choose to adopt their own process should they see fit to match their current data capture processes.
